

Game Changer

With **KT³** Technology

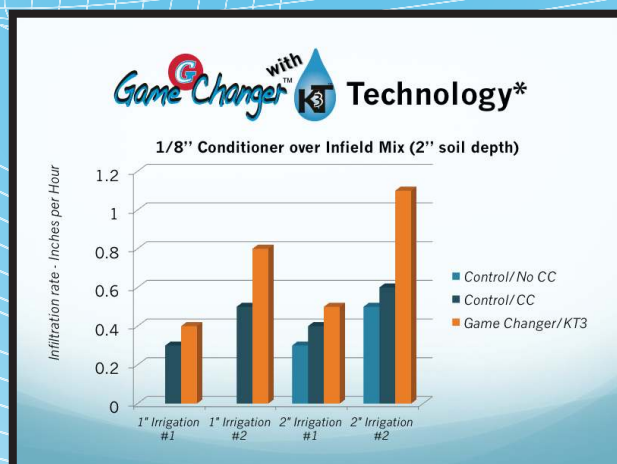

Brings you all the benefits of a premium infield conditioner and all the benefits of a premium surfactant blend without any additional application problems such as a spray or injectable application.

Your application of a premium surfactant blend is accomplished with just your normal application of your infield conditioner.

Delivers the premium surfactant blend to your infield mix.

The premium surfactant blend promotes faster infiltration of applied water or rainfall.

Independent third party research has proved the ability of the Game Changer with KT3 technology to deliver the premium surfactant blend to the infield mix profile. In this research study, the addition of the premium surfactant blend improved the infiltration of applied water by 50% (half the time required to soak up the same amount of water).

PRODUCT SPECIFICATIONS

Item # 7008

Game Changer
With **KT³** Technology

PRODUCT SPECIFICATION:

Kiln dried, super calcined and milled natural Montmorillonite Clay (CAS # 70892-59-0). Game Changer contains a proprietary blend of Nonionic Surfactants.

TYPICAL CHARACTERIZATION:

Loose Bulk Density... 38 - 42 lbs./c.f.
Moisture Content 3.0 %
Hardness* > 95 %
pH 6.0 - 6.5
CEC 33.6
Water Absorption 71 %
Product Porosity 78 %

SCREEN SIZE: **

+ 6 MESH 0 %
+ 8 MESH 12 %
+ 10 MESH 13 %
+ 16 MESH 45 %
+ 20 MESH 26 %
+ 30 MESH 4 %
+ PAN < 0.5 %

41% Capillary pore space
37% Non-Capillary pore space

** = Typical analysis, individual results may vary.

PALLET CONFIGURATION:

Per Pallet 40
Pallet Size 40 x 48"
Pallet Height 45"
Tier Configuration 5

GENERAL INFORMATION:

Origin Middleton, TN
UPC Code 091913070075
Bag Type FFS - Poly bag
Bag Weight ... 50lb. = 22.68Kg
Bag Language ... English
Bag Size 31 x 20.25
Granulation Medium
Classification Code ... 50

Last updated: 12/19/2012 - IT

What Does It All Mean?

- Safer playing surface.
- Rapid infiltration of applied water or rainfall.
- Reduced water loss due to surface evaporation & run-off.
- Increased water available to wick back to surface to reduce dust during game.
- Less drying out of infield mix during game.

- All the benefits of a premium infield conditioner.
- All the benefits of a premium surfactant blend.
- Standard maintenance practices.
