

... is privileged to Introduce **RED DIAMOND** Calcined Clay!

RED DIAMOND is the Hardest, Most Durable, *and* the Most Absorbent Calcined Clays available.
RED DIAMOND is the infield brand, and RootZoneAmendment is a fine grade for use in USGA sand.
NEW to infield maintenance is *Game Changer with KT3 Technology*, a patent-pending premium calcined clay coated with surfactant to help water penetrate twice as fast as clay conditioner alone.

Kiln fired and precision milled Calcined Clay Premium Drying Agent.
Optimum size of 20-70 mesh adds absorbency to improve surfaces fast.
78% Porous, 72% Absorption. 38-42 lbs./cu. ft. 50 lb. bags, 40 per pallet.

Most absorbent and durable Calcined Clay Conditioner on the market.
Provides superior performance and moisture control with 8 - 20 mesh.
78% Porous, 71% Absorption. 38-42 lbs./cu. ft. 50 lb. bags, 40 per pallet.

Red Diamond Premium R.B.I. Conditioner has a darker red color.
More consistent and professionally sized 10 - 20 mesh for a ballpark look.
78% Porous, 71% Absorption. 38-42 lbs./cu. ft. 50 lb. bags, 40 per pallet.

Premium Calcined Clay coated with KT3 non-ionic surfactant.
Water perks twice as fast as clay conditioners for wet or dry days.
8 - 20 mesh. 38-42 lbs./cu. ft. 50 lb. bags, 40 per pallet.

RED DIAMOND

MOUND CLAY
